

WHEN SUPERIOR ANTI-ODOR PERFORMANCE IS DEMANDED.

THE POWER OF SILVER.

PROVEN TO EXTREMES.

X-STATIC® harnesses the power of silver to create a powerful technology that inhibits the growth of bacteria on fabric, eliminating human-based odor for the life of the garment.

For more than 2,000 years, silver has been used for its' antimicrobial properties in everything from drinking vessels to military field dressings. Now, with our superior technology we deliver the benefits of silver to textiles.

Proven by United States special forces, NASA, and Olympic athletes X-STATIC® has a rich heritage of delivering superior performance. The benefits of X-STATIC® have been validated by studies at prestigious institutions throughout the world for more than a decade.

UNMATCHED PROTECTION. SUPERIOR PERFORMANCE.

X-STATIC® is made by permanently bonding metallic silver to the surface of the fiber. Not a nanotechnology or a complex chemical formula, **just silver**.

X-STATIC® fibers and fabrics deliver 100% surface area of silver to maximize performance, yet they remain soft and flexible.

X-STATIC® is registered as an antimicrobial with the US EPA, is Oeko-Tex Standard 100 certified and is used in multiple FDA approved products.*

*EPA regulated products containing X-STATIC® solely protect the finished product itself from microbial growth and odor. Any public health claims related to X-STATIC® products are expressly limited to products regulated by the FDA and do not apply to products regulated by the EPA.

X-STATIC® SILVER
PINNACLE PROTECTION OF FABRICS FROM THE GROWTH OF BACTERIA AND FUNGI.*

ANTI-ODOR
NATURALLY ELIMINATES ODOR AND KEEPS GEAR SMELLING FRESHER.*

PERMANENT
DOES NOT WASH OUT – LASTS FOR THE LIFE OF THE PRODUCT.
